

ACADEMIC TECHNOLOGY POLICIES

BPU Community is Bay Path's portal system (available at one.baypath.edu (<http://one.baypath.edu>) or via the mobile applications linked below) and allows students to view and print their individual class schedules, grades, billing statements, financial records, degree audits and enrollment histories. It is also used to access personal e-mail and information resources. The following policies are related to accessing information at Bay Path University:

- The official method of communication with students and members of the Bay Path community is via e-mail and BPU Community. Students are responsible for checking their Bay Path e-mail account regularly for important notices and other information, and for complying with stated University policies and guidelines. E-mail accounts are automatically established for all students within one week of initial enrollment.
- Bay Path University does not mail or provide printed copies of class schedules, grade reports, or degree audits. Links to these resources can be found under the Student Resources Tool section within BPU Community.
- BPU Community also provides access to financial information. Students are able to access their financial information at all times; however, when there is an outstanding balance, unapproved financial aid, missing immunization records, or other required documents, students will have access to their billing statement and class schedule but not to their degree audit, course registration, official transcript, or other information. All other information is made available to students after all financial and other requirements have been met. All of these resources can be found under the Student Resources Tool section within BPU Community.
- Students are able to engage virtually using the group spaces in BPU Community by posting messages to their peers and replying to each other on All Bay Path or All Student groups. After authenticating with their Bay Path User ID and password, students can post their thoughts, pose questions, sell items, and more. The mobile app also offers campus event notifications, campus resource information, and integrations with Canvas for assignment reminders. The BPU Community mobile app is available on the Apple App Store (<https://apps.apple.com/lu/app/bpu-community/id1642445889/?platform=iphone>) or Google Play Store (<https://play.google.com/store/apps/details?id=com.ucroo.bpu>).
