

# HEALTH SCIENCES MAJOR

General Electives	44
<b>Total Credits Required</b>	<b>120</b>

## Health Services Administration, B.S.

The Health Sciences major is designed to meet the needs of adult students who aspire to work in a wide variety of roles in healthcare. Program learning outcomes are incorporated throughout the curriculum in a scaffolded way to ensure mastery for all students, regardless of prior knowledge of or experience in healthcare. The Health Sciences major is designed to meet the needs of adult students who aspire to work in a wide variety of roles in healthcare. Program learning outcomes are incorporated throughout the curriculum in a scaffolded way to ensure mastery for all students, regardless of prior knowledge of or experience in healthcare.

Students with prior coursework, such as those with associate degrees, medical and science courses, or experiences as licensed practical nurses, dental hygienists, certified nursing assistants, and other direct healthcare work, may be able to apply transfer credits into healthcare core requirements in this degree, facilitating their career trajectory into administration or management.
