

READING AND LITERACY INSTRUCTION LICENSURE CONCENTRATION, M.S.

Master of Science in Education

Bay Path University's Reading and Literacy Instruction program prepares candidates to use evidence-based practices in curriculum, instruction, and assessment for general and specialized education for grades Prek-12. Our program focuses on learning experiences that combine cognitive, neuroscientific, and educational research. These experiences help students build capacity to meet the needs of all learners across diverse settings. We focus on the science of reading so students learn a structured literacy approach to teach reading, writing and spelling using direct, explicit, systematic, cumulative, diagnostic, and multi-modal. Online instruction-led learning experiences include frequent collaboration, guided inquiry, and deliberate practice.

Program Requirements

The Master of Science in Education degree with a concentration in Reading and Literacy Instruction requires the completion of 39 credit hours. The licensure concentration requires a practicum and seminar experience to meet degree requirements while students in the non-licensure concentration will take electives in place of the seminar and practicum experience.

Additional Program Information

Title II of the Higher Education Act

Title II (Section 207 of the Higher Education Act) requires that institutions with teacher preparation programs that enroll students receiving federal financial assistance prepare annual reports on teacher preparation and licensing.
