

SPECIAL EDUCATION MODERATE DISABILITIES LEVELS 5-12/PROFESSIONAL LICENSURE CONCENTRATION, MS

Master of Science in Education

The Master of Science in Education is designed to prepare professionals for careers in education and related fields. The degree includes options for individuals with a bachelor's degree that leads to careers in education in pre-school through secondary levels. While the M.S. in Education seeks to provide graduates with the skills, knowledge, and creativity needed for success in the classroom, community, and organizations, the specializations, certifications and licensure provide depth in a particular area of educational practice, policy, curriculum, and state-of-the-art inclusionary best practices.

Coursework for the Moderate Disabilities program provides practitioners with age-appropriate strategies for education students with disabilities in the least restrictive environment. The program focuses on current issues in special education, best practices for inclusive education, including law nondiscriminatory assessment, issues of cultural and linguistic diversity, classroom and behavioral adaptations, integration of new technologies and collaboration with families and service providers. This program includes a yearlong practicum.

Program Requirements

The Master of Science in Education with Professional Licensure options: Moderate Disabilities Levels PreK-8; Moderate Disabilities Levels 5-12; and Severe Disabilities: All Levels concentrations each require the completion of 39 credits hours. The professional licensure MS option does not require a practicum or internship experience.

Additional Program Information

Title II of the Higher Education Act

Title II (Section 207 of the Higher Education Act) requires that institutions with teacher preparation programs that enroll students receiving federal financial assistance prepare annual reports on teacher preparation and licensing. The full report is distributed with admissions materials and is also available upon request.
