

# ADDRESS & CONTACT INFORMATION CHANGES

---

Timely notification of changes to mailing address and contact information is appreciated and allows the University to maintain communication with students on important matters related to academics, campus life, and emergency situations. Students are encouraged to check the accuracy of their contact information each semester and request any updates as needed.

Personal information can be updated for Bay Path Students using the Personal Information Update Form (<https://one.baypath.edu/pages/personal-information-update/>), which is available on the Students/Student Forms page on the Bay Path Portal.

Cambridge College students can update this information during the course registration process.
