ON CAMPUS PRINTING

All public printers at Bay Path University and Cambridge College are equipped with a print management system which allows students to print and make copies using their campus card. Students' accounts will be credited $100, which equates to approximately 1,000 free single-sided prints/copies per year. Once that allotment has been used, each additional print/copy will cost the student ten cents. Students may add funds in increments of $10 to their ID via the management portal, https://wildcat.baypath.edu. All charges related to printing are non-refundable.
