

COURSE SUBSTITUTIONS AND WAIVERS

All undergraduate students must fulfill each of the Core Curriculum themes required by their major using Bay Path University courses approved by the Core Curriculum Committee and/or transfer credit considered equivalent to one of the approved courses.

Major requirements can only be substituted with the written approval of the student's Department Chair.

Requirements may not be waived except under special circumstances. Petitions for waivers of courses must be reviewed by the student's advisor, and approved by the Office of the Registrar and the appropriate Department Chair.
